AI Smart Examination Report

Official Performance Evaluation Summary | Exam ID: bf52f879-4288-48e2-8464-6ac1a7bac517

Candidate Name: Mohit Janbandhu	**Date & Time:** 2026-08-09 18:36
Subject: React	**Time Taken:** 7.2 Mins
Difficulty: Basic	**AI Provider:** Mock
Score: 5 / 30	**Percentage:** 16.7%
Grade: Fail	**Status:** Fail

Question Evaluation Breakdown

#	Question	Your Answer	Correct Answer	Result
1	What is the primary core principle underlying React when designing robust s...	B	D	Wrong
2	In React, which architectural pattern is recommended for decoupling event p...	D	A	Wrong
3	When optimizing performance in a React environment, what is the best strate...	A	A	Correct
4	Which security best practice should be applied when managing confidential p...	B	A	Wrong
5	What is the consequence of failing to validate external user input within a...	D	A	Wrong
6	Which data structure is optimal for fast O(1) key-based lookups in React?	B	A	Wrong
7	In modern React development, what does the term 'Idempotency' refer to?	D	D	Correct
8	How does automated unit testing contribute to overall code quality in React...	D	D	Correct
9	What is the main advantage of containerization (e.g. Docker) in React appli...	A	B	Wrong
10	Which metric is critical for monitoring system availability and health in R...	C	A	Wrong
11	What is the primary core principle underlying React when designing robust s...	C	C	Correct
12	In React, which architectural pattern is recommended for decoupling event p...	B	A	Wrong
13	When optimizing performance in a React environment, what is the best strate...	A	C	Wrong
14	Which security best practice should be applied when managing confidential p...	C	D	Wrong
15	What is the consequence of failing to validate external user input within a...	D	B	Wrong
16	Which data structure is optimal for fast O(1) key-based lookups in React? (...	A	D	Wrong

17	In modern React development, what does the term 'Idempotency' refer to? (Sc...	C	D	Wrong
18	How does automated unit testing contribute to overall code quality in React...	D	C	Wrong
19	What is the main advantage of containerization (e.g. Docker) in React appli...	D	A	Wrong
20	Which metric is critical for monitoring system availability and health in R...	D	C	Wrong
21	What is the primary core principle underlying React when designing robust s...	D	C	Wrong
22	In React, which architectural pattern is recommended for decoupling event p...	C	A	Wrong
23	When optimizing performance in a React environment, what is the best strate...	C	A	Wrong
24	Which security best practice should be applied when managing confidential p...	B	A	Wrong
25	What is the consequence of failing to validate external user input within a...	B	B	Correct
26	Which data structure is optimal for fast O(1) key-based lookups in React? (...	B	A	Wrong
27	In modern React development, what does the term 'Idempotency' refer to? (Sc...	C	D	Wrong
28	How does automated unit testing contribute to overall code quality in React...	B	C	Wrong
29	What is the main advantage of containerization (e.g. Docker) in React appli...	B	C	Wrong
30	Which metric is critical for monitoring system availability and health in R...	C	B	Wrong
